### **REGULATION** **on the education, rights and obligations of dental assistants** **and criteria for granting of licences,** **No. 1122/2012.**

#### SECTION I

##### **General provisions.**

###### Article 1

###### *Scope.*

This Regulation applies to dental assistants licensed by the Medical Director of Health under Article 2.

#### SECTION II

##### **Licences.**

###### Article 2

###### *Professional title.*

The right to use the professional title of dental assistant and to practise as such in Iceland is confined to those who have been granted a licence by the Medical Director of Health.

###### Article 3

###### *Criteria for granting of a licence.*

A licence under Article 2 may be granted to those who have completed education in dental assistance from a recognised educational body which operates on the basis of the national curriculum guide for upper secondary education.

A licence may also be granted on the basis of education from a state within the European Economic Area (EEA) and Switzerland. Recognition of professional qualifications and competence of a dental assistant who meets the criteria of Directive 2005/36/EC, on the recognition of professional qualifications, with subsequent amendments, is subject to Regulation on recognition of professional qualifications and competence of healthcare practitioners from other EEA states, No. 461/2011, or to Nordic Convention on a common Nordic labour market for certain health professionals and veterinarians, No. 36/1993 (*cf.* Amendment No. 6/2001).

A licence may also be granted to those who have completed a comparable qualification from an educational institution in a state outside the EEA or Switzerland, which is recognised as such by Icelandic health authorities, and by health authorities in the state where the education took place.

An applicant for a licence as a dental assistant under Article 2 who is from a state outside the EEA and Switzerland, with which Iceland has not made an agreement on recognition of professional qualifications and competence, shall submit *inter alia* documentary evidence of nationality, content and duration of education, in addition to an examination certificate, a licence if the profession is an authorised profession in the applicant's state of origin, intended employment in Iceland, and any other documents and certificates deemed by the Medical Director of Health to be necessary for the issue of a licence.

Before an application for a licence is evaluated, as applicable a certified copy must be submitted of an application for residence and work permits, together with a signed contract of employment.

A requirement may be made for knowledge of the Icelandic language and Icelandic healthcare legislation and other legislation and government directives, deemed necessary to the work of a dental assistant, especially with regard to patients' safety and communication with patients.

Should it not have been demonstrated, in the judgement of the Medical Director of Health, that the applicant's qualification fulfils the criteria under the first paragraph, an applicant may be required, account being taken of professional experience, to submit to a test of competence to demonstrate that he/she possesses the professional knowledge and competence required in a dental assistant. The Medical Director of Health shall organise this test in consultation with a recognised educational body which operates on the basis of the national curriculum guide for upper secondary education.

A licence under the third paragraph is issued when the applicant commences work in Iceland.

#### Article 4

##### *Opinions.*

Before a licence is granted under Article 2 on the basis of education outside Iceland under the third paragraph of Article 3, the Medical Director of Health shall elicit the opinion of a recognised educational body which operates on the basis of the national curriculum guide for upper secondary education, with regard to whether the applicant fulfils the criteria for education under the first paragraph of Article 3, for granting of a licence.

The Medical Director of Health may elicit opinions from other bodies, as deemed necessary.

### SECTION III

##### *Trainees.*

A dental assistant is responsible for trainees assigned to his/her supervision having sufficient competence and knowledge, and receiving the necessary guidance and instructions, to carry out tasks which he/she allots to them.

Article 8

*Confidentiality.*

A dental assistant shall maintain the utmost confidentiality regarding anything of which he/she becomes aware in his/her work about a patient's health, condition, diagnosis, prognosis and treatment, and other personal information. This does not apply where other provisions are made by law, or where reasonable cause exists to breach confidentiality for reasons of urgent necessity.

A dental assistant can be released from the obligation of confidentiality by the consent of a patient, or guardian if applicable.

The duty of confidentiality under this Article does not apply to cases in which the dental assistant has a duty to report under other legal provisions. In such cases, the duty of the dental assistant is to notify the relevant authority.
